

The structure of EFNUDAT

Network activity 2 (NA2) Objectives

Promotion of the facilities

“We will create within the consortium a platform where experimentalists, theoreticians and data evaluators can discuss all issues related to the quality and efficiency of the production of neutron cross section data”

Network activity 2 (NA2) Objectives

Main Actions:

- Inventory of exp. equipment, data processing and analysis codes available within the consortium. (Report on website)
- User group and collaboration workshops.

Deliverables for NA2

Deliverable/ Milestone No	Deliverable/Milestone Name	Workpackage /Task No	Lead Contractor(s)	Planned (in months)	Achieved (in months)
D8/ NA2.1	Inventory of available experimental resources and needs	NA2	UU-TSL	3	6

Network activity 3 (NA3) Main Objectives

- Dissemination of results obtained within EFNUDAT
- Organisation of scientific workshops (nuclear data needs)
- Links with other FP6-projects (EUROTRANS CANDIDE, NUDAME).
- Short term Visitor program.

NA3 Objectives

EFNUDAT activities will result in the generation of new knowledge.

The dissemination of the results is promoted by a several communication actions through :

the Consortium members,
the neutron data community,
the wider scientific community,
the public at large.

Communication Action Plan (CAP)

The communication channels:

- Web-based activities (R. Plag presentation)
- Publicity (flyers)
- Participation in international cooperation and interaction with other relevant projects,
- Scientific publications, Talks and Contributions to Conferences,
- Contribution to databanks
- Organisation of visits and events.

Short term visitor Program (Driven by UU-TSL)

European physicists

Expertise relevant for general objectives of
EFNUDAT.

Short visits (two months max)

Funds for travel and per diem.

3 Applications evaluated by the PAC.

The short-term visits program suffered a problem.
It turned out that the reporting and accounting procedure
of this program were not commensurate with Swedish law!

The Management board decided that:

**The financial administration of the program will be
moved to the project coordinator.**

**UU-TSL still administrates the scientific aspects
(e.g., pre-evaluation of the applications).**

Deliverable/ Milestone No	Deliverable/Milestone Name	Workpackage /Task No	Lead Contractor(s)	Planned (in months)	Achieved (in months)
D4/NA3.1	Kick-off meeting	NA3.7	FZK	2	2
D10/ NA3.2	Call for short term visitors (Call on website)	NA3.3	UU-TSL	4	4
D12/ NA3.3	Evaluation of call for short term visitors	NA3.3	UU-TSL	6	6
D13/ NA3.4	Establishment of the EFNUDAT website	NA3.4	FZK	6	6
D14/ NA3.10	Leaflets and brochures for the public	NA3.8	PTB	6	6
D15/ NA3.11	Publications in journals for the wider scientific community (communication Action Plan)	NA3.6	All partners	6	
D20/ NA3.2	Call for short term visitors	NA3.3	UU-TSL	10	10
D21/ NA3.3	Evaluation of call for short term visitors	NA3.3	UU-TSL	12	12
D23/ NA3.3	Assessment of dissemination activities	NA3.3	UU-TSL	12	12
